Economist To Give Ice Magic Hints

"Operation Ice-Magic" a program designed to acquaint the public with the possibilities of the new Servel refrigerator in preparing a wide variety of dishes and desserts, will move into Torrance homes this week. It has been announced here by representatives of the Southern California Gas Co.

A home demonstration program available to any housewife having one of the new Servel refrigerators is being launched by local dealers who handle the product. The gas company's home economist will demonstrate the uses of the Servel automatic ice maker in the home to the housewife and her neighbors and friends.

To get the "at-home" demonstration, all the housewife has to do is contact one of the three local Servel dealers—Liberty Home Appliance Co., Torrance Plumbing, or National Home Appliance Co.—and ask to be included on the schedule of home visits. Redondo area residents may arrange for a demonstration at the Redondo Trading Post.

The program is scheduled to be continued through the end of August, according to Tenny Gray, Southern California Gas Co. dealer representative.

Ladies arranging to have the demonstration in their homes will receive a barbecue set as a gift.
